LaCie AIT U&I Tape Drives

**Universal backup devices
with USB 2.0 and FireWire**

NEXT-GENERATION AIT TECHNOLOGY

LaCie's AIT1 U&I Tape Drive offers up to 90GB of compressed capacity, ideal for workstation backup. For even greater data storage, the LaCie AIT2 U&I Tape Drive offers as much as 130GB of compressed capacity — perfect for network and departmental server backup.

CROSS-PLATFORM COMPATIBILITY

LaCie AIT U&I Tape Drives allow you to share your backup devices on both Mac and PC platforms. Featuring hot-swappable U&I technology, they connect quickly and easily to most computers, and standard technology allows for scalability and capacity growth.

VERSATILE STORAGE SOLUTION

Offering the flexibility and performance of USB 2.0 and FireWire, LaCie AIT U&I Tape Drives can easily be shared within a workgroup to satisfy all backup requirements, keeping businesses moving forward. Drives come complete with Retrospect software for Mac and PC for centralized, automated backup and disaster recovery.

INTELLIGENT DESIGN

With compact, slim design, LaCie AIT U&I Tape Drives can easily be incorporated into a variety of desktop environments. A sturdy aluminium design allows these drives to be used as portable, stand-alone devices; stacked; or quickly integrated into standard 19-inch computer equipment racks.
